On average, 2D and 3D files will open

11x

faster in AutoCAD 2026 vs. AutoCAD 2025*

* As with all performance tests, results may vary based on factors such as user experience, machine, operating system, network configurations, filters, and source material. While every effort has been made to make the tests as fair and objective as possible, your results may differ. Product information and specifications are subject to change without notice. Smart Blocks: Search and Convert

Enhanced for AutoCAD 2026

Quickly search your drawings for objects, matching text, and variable text, to convert into instances of a newly defined block, an existing or recently used block, or a suggested block from your Block Libraries with the help of Autodesk AI.

Included in:

AutoCAD 2026

AutoCAD LT 2026 *

Smart Blocks: Detect and Convert Tech Preview

Enhanced for AutoCAD 2026

Improve design efficiency and save time when cleaning up drawings by automatically recognizing objects to convert into blocks with the help of Autodesk AI. AutoCAD now includes additional control to refine and modify result with the new review toolbar.

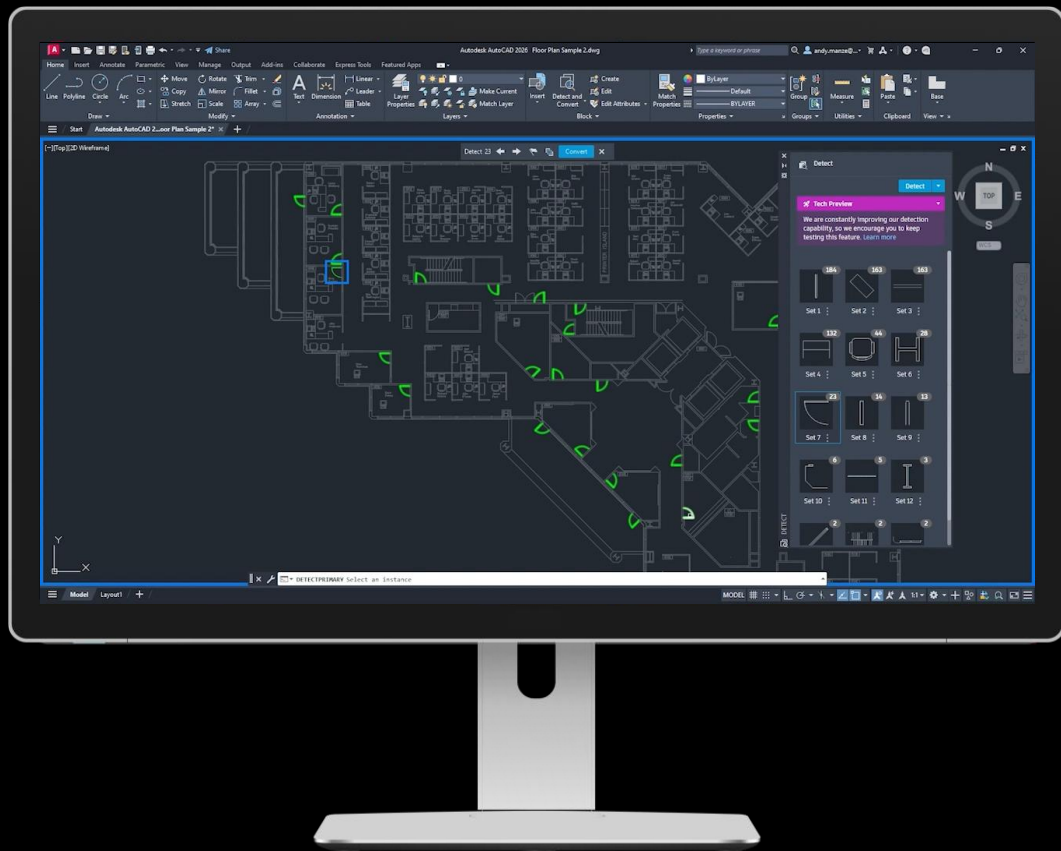

Included in:

AutoCAD 2026

AutoCAD LT 2026

“

These improvements and additional support items to Smart Blocks: Search and Convert will provide users more tools to expedite workflows and the time they work in drawings, **freeing up more time to focus on the quality of their design versus software tools and steps or command sequences.**

Director of Product Management, AutoCAD

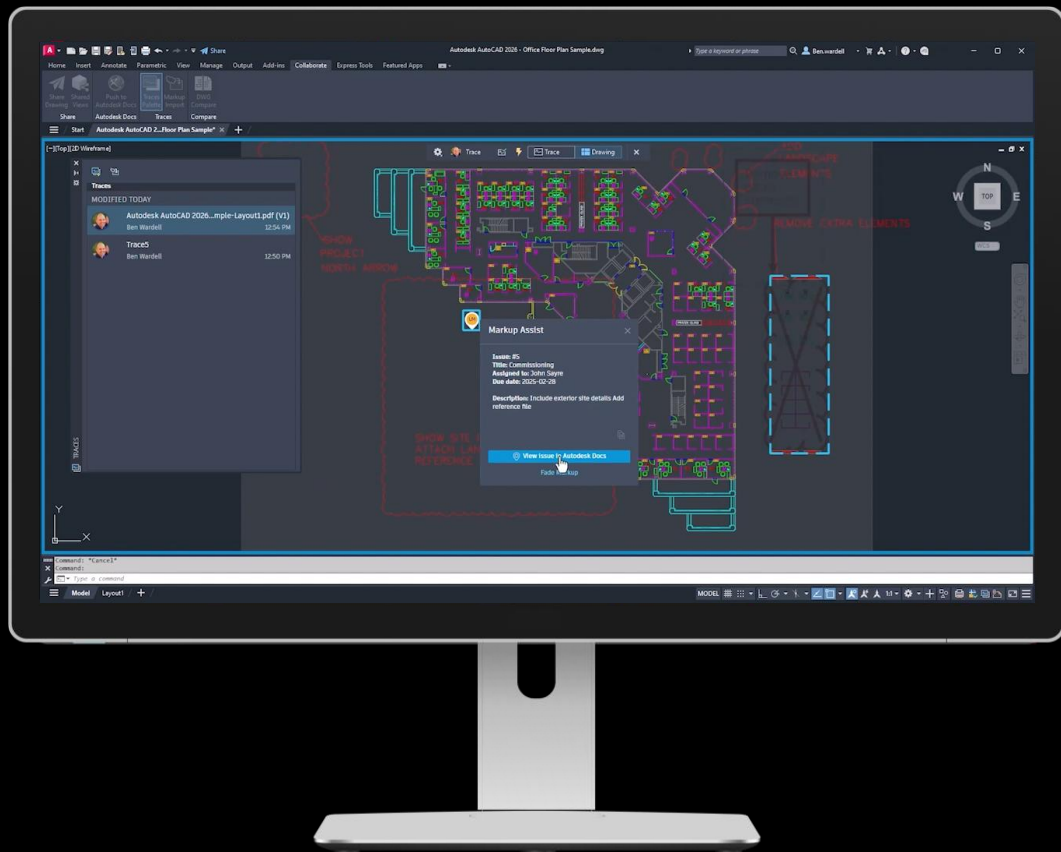

Markup Import & Markup Assist

Enhanced for Autodesk Docs Projects

Markup Import now supports feedback from Autodesk Docs Issue Tool along with Markup Tool. Handwritten, digital, or in combination, all red lines can be imported into your drawings.

Markup Assist can detect text, strikethroughs, and revision clouds with the power of Autodesk AI.

Included in:

Multi-user Markup Early Access

AutoCAD on the web with Autodesk Docs Projects

Collect and share feedback directly on drawings using intuitive Autodesk Docs markup tools—now available in early access with AutoCAD on the web.

Create markup links to provide simultaneous access to designs without duplicating or locking files.

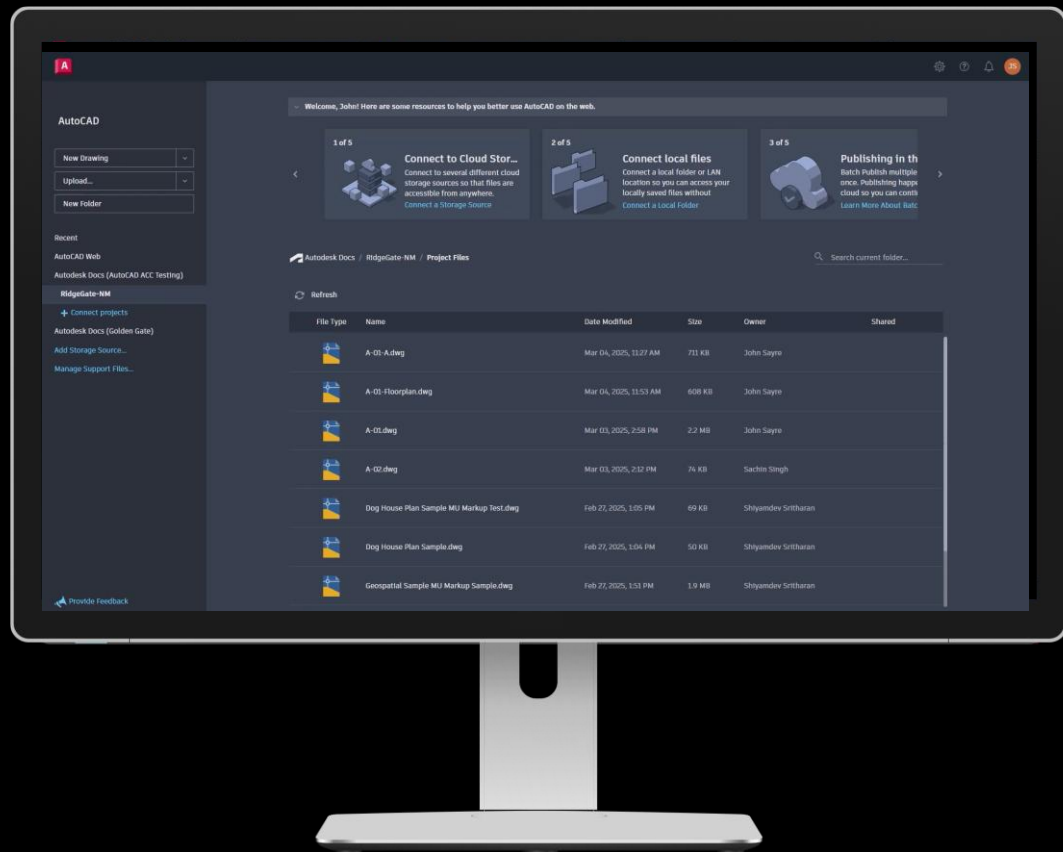

Included in:

AutoCAD 2026

AutoCAD LT 2026

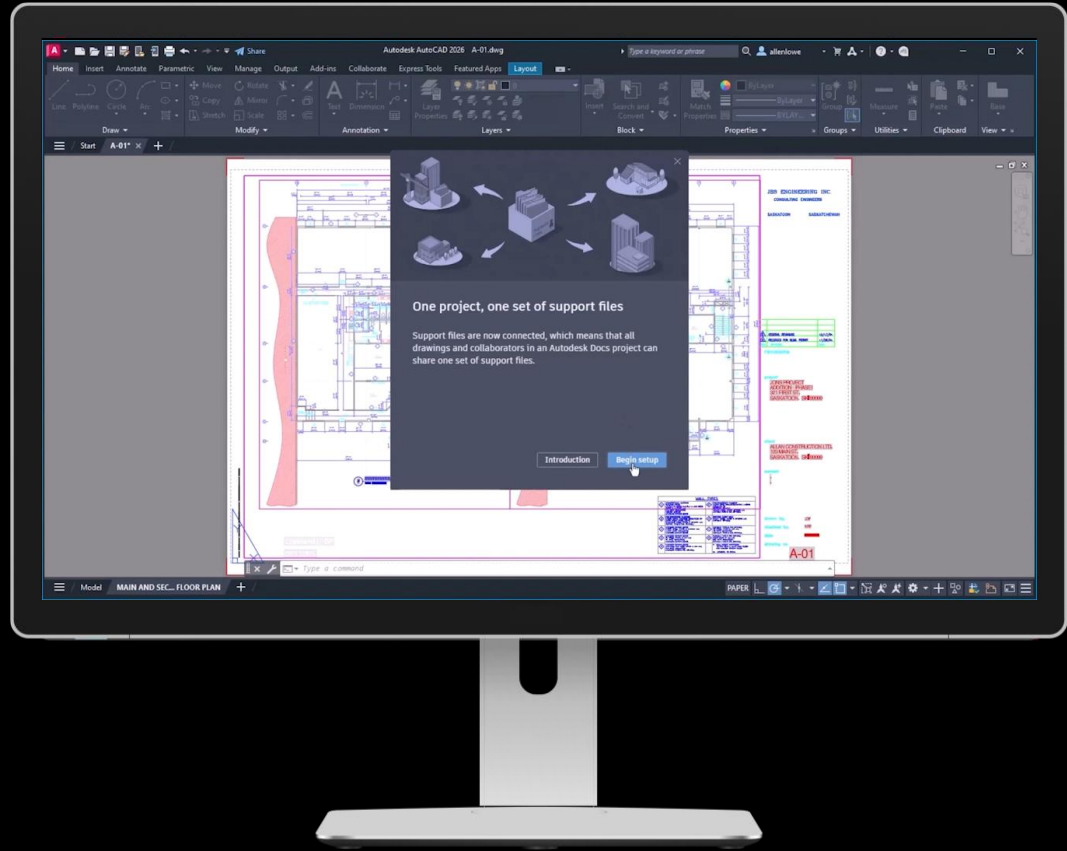

Connected Support Files

Exclusively for Autodesk Docs Projects

Define one set of project-aware support files and settings for an Autodesk Docs project.

View and edit DWG files with the intended support files without requiring additional steps to configure individual users or AutoCAD installations.

Included in:

“What’s Changed” Activity Insights

“What’s Changed” insight provides a high-level summary of changes made across all editing sessions by any user.

Summary of updates since last save

Specific changes to objects

Workflow breakdown based on command

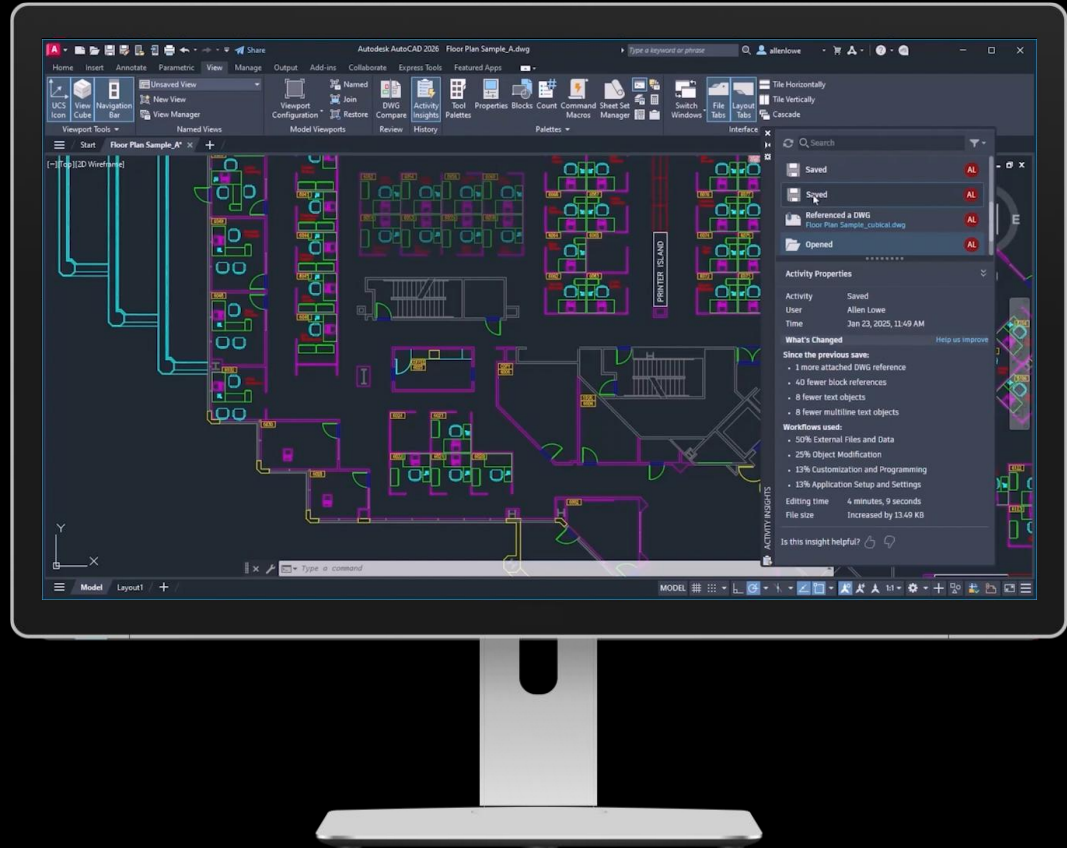

Changes to file size

Overall editing time

Included in:

* While DWG event logging for Activity Insights is available for all file storage types, “What’s Changed” (new in AutoCAD 2026) is only available for DWGs stored on local file storage, Local Area Networks (LAN) and Docs. It is not available for DWGs stored on 3rd-party cloud storage services.

Tailored functionality

Customize AutoCAD to your industry needs

Empowering teams to build and run
discipline-specific routines and
workflows.

AutoLISP

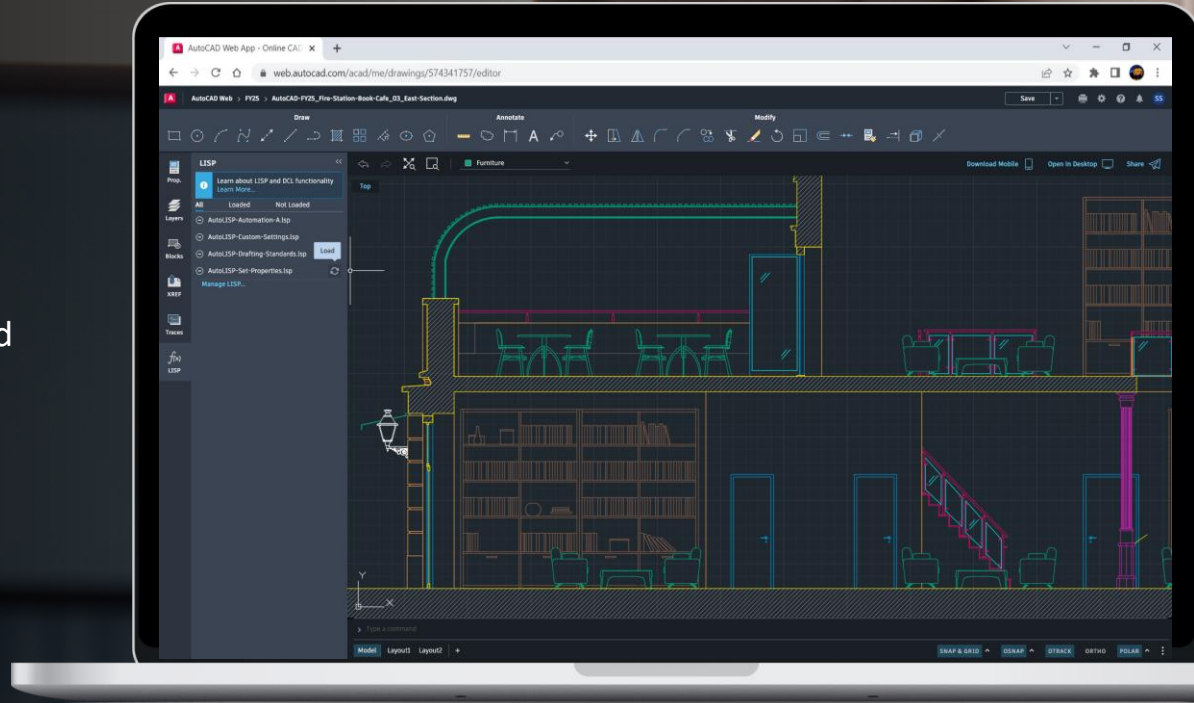

Leverage thousands of previously written programs created for use in AutoCAD-based programs.

AutoCAD LT supports:

AutoLISP Source (LSP) files

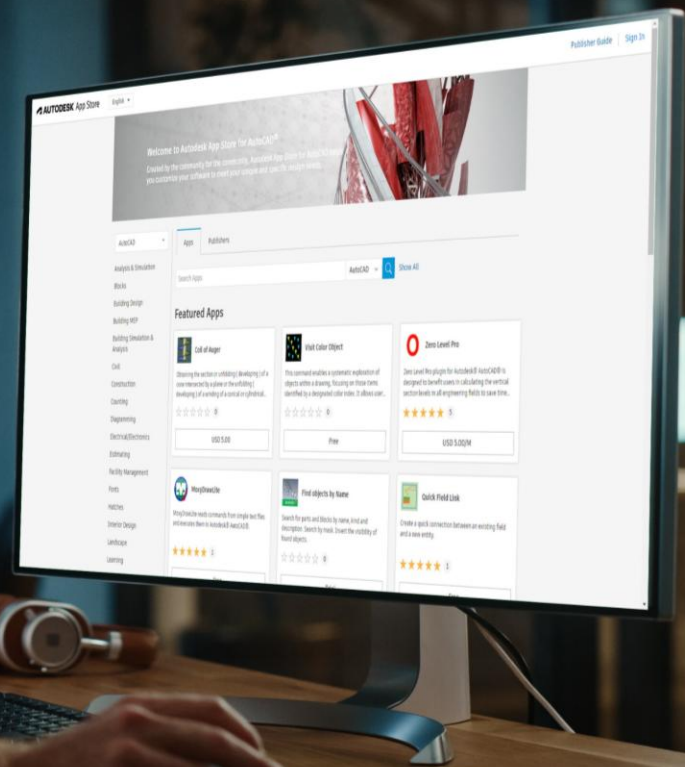

Fast-load AutoLISP (FAS) files

Visual LISP Applications (VLX files)

Apps & APIs

Access to over a thousand third-party apps with the ability to build your own with the AutoCAD API.

Toolsets

Use specialized toolsets for discipline-specific features, functionality, and parts—including architectural, mechanical, electrical design components and more.
